

# I AM CHAMPION

# 2011 PRELIMINARY PROGRAM

## 40<sup>TH</sup> ANNUAL MEETING OF THE AANS/CNS SECTION ON PEDIATRIC NEUROLOGICAL SURGERY

November 29 – December 2, 2011  
Hilton Austin Hotel, Austin, Texas

The American Association of Neurological Surgeons designates this educational activity for a maximum of 26 AMA PRA Category 1 Credits™

- Scientific papers and lectures covering a variety of pediatric neurosurgical topics
- Over 100 scientific oral and poster presentations and 26 exhibiting companies

The AANS/CNS Section on Pediatric Neurological Surgery would like to take this opportunity to invite you to attend the 40th Annual Meeting which is being held in the capital of Texas, otherwise known as the warm and beautiful hill country city of Austin. The venue is the eclectic downtown Hilton Austin Hotel, just steps away from great restaurants and world-renowned music districts. The hotel is a quick 10-minute taxi ride from the Austin-Bergstrom International Airport, which is easy to access from most destinations. Make your plans early, because this is one meeting you will not want to miss!

The spotlight this year is on Tackling Difficult Problems and the meeting's theme, I AM CHAMPION, will be presented in a series of provocative talks by leading experts in the nation.

**On behalf of the organizing committee, we look forward to welcoming you to Austin.**

Alan Cohen, MD, FACS  
Chair, AANS/CNS Section on  
Pediatric Neurological Surgery

Timothy M. George, MD  
Annual Meeting Chair,  
AANS/CNS Section on Pediatric  
Neurological Surgery

## WHO SHOULD ATTEND

The educational sessions will be directed towards pediatric neurological surgeons, residents, nurse clinicians and physician assistants and will be directly applicable to their practices.

## CONTINUING MEDICAL EDUCATION CREDIT/ NURSING CONTACT HOURS

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the AANS and the AANS/CNS Section on Pediatric Neurological Surgery.

The AANS designates this live educational activity for a maximum of 26 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For the Mid-Level Practitioner's Seminar: This activity has been submitted to the Illinois Nurses Association Approver Unit for approval to award contact hours. Illinois Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

## ANNUAL MEETING LEARNING OBJECTIVES

Upon completion of this CME activity, participants should be able to:

1. Discuss updates on new therapies of pediatric neurosurgical disorders.
2. Discuss updates on clinical and translational research of congenital, traumatic, neoplastic and other pediatric neurosurgical conditions.
3. Explain new techniques in the surgical treatment of pediatric neurosurgical disorders.
4. Discuss challenging social and economic problems for pediatric neurosurgery.

## DISCLOSURES

Before the program, all faculty members will disclose the existence of any financial interest and/or the relationship they or their significant other have with the manufacturer(s) of any commercial products(s) to be discussed during their presentation. The AANS and the AANS/CNS Section on Pediatric Neurological Surgery control the content and production of this CME activity and attempt to ensure the presentation of balanced, objective information.

## PROGRAM HIGHLIGHTS

The open scientific sessions provide participants exposure to the latest in research and groundbreaking information available on neurosurgical topics. This year's meeting will feature Special Sessions that take a look at controversial topics, and are discussed by selected experts. This year's Raimondi Lecture will be given by Mack Brown, head coach of the University of Texas Longhorns, who will discuss *Sports-related Concussive Brain Injuries: A Coach's Perspective*. Other featured speakers include Francisco Cigarroa, MD, Chancellor of the University of Texas System presenting *The Future of Academic Medicine in a Changing Healthcare Environment*; and Ben Carson, MD, will talk on *The Importance of Impacting the World Outside of Neurosurgery*.

We are excited to be providing an informative Mid-Level Practitioner's Seminar focusing on the challenges in patient care and healthcare delivery. We will also be holding a special coding course directed towards pediatric neurosurgery and looking towards the future with an ICD-10 overview.

Educational programming will include topics such as craniofacial, hydrocephalus, spine, tumors, trauma and vascular.

### Exhibit Viewing

Vendors and their exhibits afford meeting participants an excellent opportunity to view highly specialized equipment and observe first-hand demonstrations of the latest technology available in pediatric neurosurgery.

### Poster Sessions

Poster presentations give interested parties an opportunity to study at their leisure and, at length, the most cutting-edge research performed and documented by leaders in pediatric neurosurgery.

### Opening Reception

The Opening Reception will take place on Tuesday, November 29 from 6:30 – 8:00 PM at the Hilton Austin Hotel. Enjoy spending the evening with friends and colleagues over a wonderful assortment of hors d'oeuvres and open bar. All registered attendees and registered guests/spouses receive one complimentary ticket to this event. Business Casual attire suggested.

## SPECIAL EVENING EVENT

**A SPECIAL EVENING WITH JIMMIE VAUGHAN**

**THURSDAY, DECEMBER 1**

**6:30 – 10:00 PM**

**COST: \$50 PER PERSON**

Come and enjoy a relaxing evening as we will have the rare opportunity to hear Grammy Award winning Texas blues artist, *Jimmie Vaughan* perform! While socializing and enjoying food and beverages, the highlight of the evening will be listening to Austin's own Jimmie Vaughan as he performs his array of songs just for our group. Be sure to join us for this special musical evening!

# PROGRAM SCHEDULE

## Mid-Level Practitioner's Seminar

Upon completion of this activity, the learner should be able to:

### The Impact of Quality Improvement: A Discussion of Pitfalls, Protocols and Policies to Improve Quality and Safety

1. Discuss why policies and protocols are important in improving QA
2. Identify some common mistakes when forming and implementing QA policies/procedures
3. Identify examples of QA initiatives

### Providing Postoperative Medical Care to the ICU Patient

1. Recognize common postoperative complications following surgical intervention involving areas of endocrine function
2. Discuss the management of postoperative neuro-endocrine dysfunction, including DI
3. Discuss the importance of adequate postoperative nutrition
4. Identify when to initiate supportive nutrition therapy
5. Discuss the relationship between nutrition and healing

### Understanding the Pediatric Ophthalmologic Assessment

1. Review the ophthalmologic assessment of the pediatric patient
2. Identify normal variations in the ophthalmologic exam
3. Recognize abnormal ophthalmologic findings
4. Review management of the patient with abnormal ophthalmologic findings

### How to Recognize and Diagnosis Abnormal Scans

1. Recognize the presence of abnormal radiologic findings on CTs and MRIs
2. List three abnormal radiologic findings
3. List two differential diagnoses for an abnormal radiologic finding
4. Review common neuroradiologic terminology

### An Update on Pediatric Concussions and Sports

1. Discuss the diagnosis of concussion
2. Identify current methods for evaluating concussion severity
3. Review treatment modalities for concussions
4. Discuss return-to-play guidelines

### Uncommonly Seen Pediatric Brain Tumors

1. Review common tumors found in pediatric patients
2. List unusual and rare tumors seen in pediatric patients
3. Discuss differential diagnoses of pediatric brain tumors

### Surgical Epilepsy Indications, Treatments and Outcomes

1. Describe the available surgical evaluation and treatment options for epilepsy syndromes in children
2. Describe expected outcomes of common surgical treatments for epilepsy
3. Review postoperative management of patients with epilepsy

### The Nuances of How to Perform Non-operative Neurosurgical Procedures

1. List important considerations in performing LPs in patients with idiopathic intracranial hypertension
2. Discuss complications and problem solving techniques when performing ventriculo-peritoneal shunt patency flow studies
3. Discuss common problems with bedside management of external ventricular drains
4. Review techniques for adjusting programmable ventriculo-peritoneal shunt valves
5. Describe how to perform halo vest application, vagal nerve stimulator adjustment, baclofen pump interrogation and refilling

### Managing Difficult and Controversial Conditions: Chiari Malformations, Slit Ventricle Syndrome, Pseudotumor Cerebri (IIH) and Arachnoid Cysts

1. Discuss the pathophysiology of slit ventricle syndrome
2. Review the diagnosis of slit ventricle syndrome
3. Describe treatment options for slit ventricle syndrome
4. Discuss the pathophysiology of idiopathic intracranial hypertension
5. Review the diagnosis of idiopathic intracranial hypertension
6. Describe the treatment options for idiopathic intracranial hypertension

### Surgical Treatment for Spasticity & Movement Disorders

1. Identify indications for rhizotomy, baclofen pump insertion and DBS
2. Discuss postoperative management following rhizotomy
3. Discuss postoperative management of baclofen pumps

### When to Treat Spinal Dysraphisms

1. Recognize when to refer patient for fetal surgery
2. Explain the diagnosis and treatment of spinal dysraphisms leading to tethered cord syndrome

### Inspiring Community Service

1. Discuss how community service aides in healthcare delivery

### The Essentials of Coding Pediatric Neurosurgery Procedures

1. Apply correct CPT coding concepts to at least two common pediatric neurosurgical services
2. Discuss the differences between ICD-9-CM and ICD-10-CM diagnosis codes
